A Frank Statement Regarding Price Reductions

The Packard Motor Car Company of New York believes that this is the time for a sincere, straight-forward statement of its position on the question of prices:

First: We are in entire accord with the public sentiment which favors a general price reduction on all commodities as a step toward normal living conditions, provided there are sound reasons for such reductions.

Second: We do not believe that normal conditions can be restored by hasty and drastic action on the part of manufacturers and distributors.

Third: We believe that to permanently affect price levels, all reductions, whether on motor vehicles or any other commodities, must be based on a reduction in costs.

Fourth: We are hopeful of a downward trend in manufacturing and selling costs. However, no one can today determine what economic changes will occur in the next six months. We believe that our customers should be protected during this period of uncertainty. Therefore,

The Packard Motor Car Company of New York guarantees to anyone who has purchased, or hereafter purchases, from us a new Packard vehicle (car or truck) at list price, and takes delivery between September 25, 1920, and June 30, 1921, a refund equal to the difference between the price paid by the purchaser and any new lower list price made during this period.
